

My Influential Relative

by David Harrell

Who is your relative?

My most influential relative is my sister Brionna McCargo. We both love to try new foods, adventurous, and tell jokes to each other. I also admire her for all the hard work she does in school, as a senior in college at the University of Illinois in Champaign IL.

What did she do? What was her claim to your fame?

Brionna is part of the School of Business Program where she was given the opportunity to meet Lovie Smith, a former coach of the Chicago Bears where she declared her two majors in both Marketing and Information Technology.

When did this individual live, and what year were they most active in their lives?

Brionna was born on February 3, 1996 and still alive today. She has always been active in many activities but, especially during college. In her freshmen year she was given a paid internship, and free housing at Discover Credit Card Company. Brionna created some of the public pages on their website which was a great achievement. She has traveled to The White House, Portland Oregon, North Carolina, New York, Texas, Atlanta, Cleveland, Florida and she will be traveling to Iceland next year.

Where did this individual live? Were there any outside protagonists there that led them to do incredible things?

Brionna grew up in Chicago. Some of her outside protagonists that helped her to do incredible things were our parents who always talked to us about the importance of hard work, faith, and education which allowed her to be involved in many activities such as running marathons, school of business, networking with her interns, and tourist attractions of the places she has traveled.

Why did they do what they did?

My parents has always enforced the importance of education and the exposure of different cultures. Brionna wants to become a successful business woman.

Did their accolades occur over time, did it happen quickly? How did they leave their mark on you?

Some of Brionna's accolades occurred over time and some happened quickly. Her accomplishments have shown me that if you work hard, good things will come your way. Also that you can do anything you set your mind to.
